

## The Lightning Nock Advantage

- Firenock technology for the budget archer.
- Battery field replaceable.
- Nock field replaceable as it gets worn out.
- It cannot be shut off for 4-6 seconds after activation. The circuit's logic prevents bone hits and shock from shutting off the light. The shock which usually shuts off the light in other brands would reset the circuit in Lightning Nock, ensuring the light is lit at the most critical moment.
- Use the same actuator for deactivation. This will prevent the nock position from being altered every time you turn off the nock.
- Focus beam LED; visible up to 55 yds in the day time and up to 0.62 miles at night.

- Each battery can last up to 16 hours.
- No physical contact (button); the nock turns on electronically when you fire the arrow.
- No expensive one time use mini light stick and no continuous light to spook the game
- No heavy housing to add weight (~25 grains with the nock).
- No metal prongs to damage your arrow.
- It is spin balanced.
- No glue needed for installation.
- No special tool needed for installation.
- Optional refresh pack available.
- Optional knock proof pack available.
- Optional matched weight practice nock available.

Will fit most common standard diameter carbon shafts with internal diameter of 0.242" - 0.246" and most aluminum arrows that utilize the Easton Uni-nock system:

**Beman ICS:** Hunter Elite, Hunter, Hunter Junior, Venture, Beman 9.3, Energy

**Cabela's:** Carbon Hunter, Stalker Extreme Carbon, Outfitter Series

**Carbon Xpress:** Aramid KV, Maxima Hunter, Maxima, Terminator Hunter, Terminator Select, Terminator Select Hunter, Terminator Lite, Terminator Lite Hunter, Terminator Lite Select, Carbon Rebel, Carbon Rebel Hunter, Thunderstorm SE, Thunderstorm, Heritage

**CarbonImpact:** Stealth XLT, Trophy Hunter, Carbon youth

**Carbon Tech:** Whitetail, Cheetah, Rhino

**Easton:** LightSpeed, PowerFlight,

**Gold Tip:** Pro Hunter, XT Hunter, Expedition Hunter, Falcon, Traditional XT, Traditional Hunter, Big Game 100+, Ted Nugent Signature

**PSE:** Carbon Force, X-Weave, X-Weave Pro

**Red Head:** Carbon Fury, Carbon Maxx, Carbon Supreme, Carbon Hunter

**Scout Mountain Equipment:** Epsilon Arrows

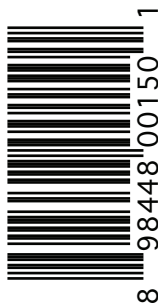

**Vapor:** Predator, Pro, Pro Max-I, Whitetail

**Victory:** V-Force, V-Force HV

## The system includes:

- 3 fluoro orange nocks with circuit boards
- 3 lithium pin type batteries (425)
- 1 actuator magnet
- 1 die cut double sided mounting tape

Proof of Purchase

See inside for installation manual

**KEEP OUT OF REACH OF CHILDREN, SMALL PARTS**

*Lightning Nock is Designed by Firenock in the heart land of the USA in Henry, Illinois (a city of 2600 people and 5000 deer within the surrounding areas)*

Firenock™ International  
contact@firenockintl.com

Assembled in China with parts from United States, Mexico, Japan, Hong Kong, China and Korea, with Firenock specifications.

Printed in China

**LEGAL NOTICE:** Please check with local DNR office before harvesting game with electronically lighted nock.

**DISCLAIMER:** *Lightning Nock is meant to use on arrows for targets and big game animals. Shooting into hard objects like rocks, concrete blocks, hard wood, and on small game, without the use of optional "Extreme Shock Battery End Cap" can cause the battery wire connector to break or nock to crack. This is not covered under warranty.*

**WARRANTY INFORMATION:** Please consult with your local Importer, and/or Distributor for more information.
